Hueframe

Add some colour to your life and frame your most beautiful leaf, flower or paper art with Hueframe. Hueframe is a frame without a frame and has a striking appearance thanks to its colours and semi-transparent character. Hueframe is connected subtly by rubber rings and because of the absents of a visible frame you can even let your leaf, flower or picture stick out a bit.
Its semi-transparent character and the colours cause a beautiful spectacle of light and colour when you put the Hueframe in front of your window.

Specifications:

- available in the colors Transparant White, Bright Yellow, Azure Blue
- available in small, medium, large
- easy shipping

Lilylight

Lilylight is an elegant candle holder which is inspired by the beautiful shape of a water lily. Thanks to the transparent design the candles seemingly float. Even when the candle is not burning it is a beautiful object for your interior.

Lilylight is made of aluminium and is available in two sizes and consists of four elements which are held in place by a small rubber ring and can be put together easily. Lilylight is packaged to be send via mail which makes it a nice gift for friends and family abroad.

Specifications:

- available in small and medium
- available in the colors blue and titanium
- easy shipping
